

Unknown Donor Gives \$250 To Red Cross; Contribution Received From North Africa

A contribution of \$250 from an "Anonymous" donor and a \$5 donation from Charles H. Huber, Jr., ambulance driver in North Africa, bolstered the Adams County Red Cross War Relief Fund today.

While officials at the Red Cross office acknowledged the two donations they declined to reveal the name of the individual who donated \$250, saying that it should be listed, upon request of the donor, as "anonymous."

Service Men Donate

"This demonstration of faith and confidence in the Red Cross makes the effort of the many volunteer campaign workers more pleasant," said Henry M. Scharf, campaign chairman.

Another encouraging tone to the campaign this year is the interest of service men many of whom have contributed to the fund. Today's acknowledgements include two service men's donations, Mr. Huber's contribution from North Africa and one from Major and Mrs. E. A. Miller. Major Miller is a former prominent physician of Gettysburg. He is also a veteran of the first World war.

In addition to the \$250 donation, the largest single contribution as yet received by the Red Cross, the county chapter also listed 23 other donations. They included: American Legion Auxiliary of Gettysburg, \$2.50; Evangelical church, Idaville, \$10; IOOF, Gettysburg, \$3; Mothers' club, St. Francis Xavier school, \$5; Mary Gettys Rebekah lodge, \$2; Ladies' Adult class of the York Springs Lutheran Sunday School, \$2; Rev. and Mrs. R. R. Gresh, \$10; Dr. and Mrs. E. H. Markley, \$10; Mrs. H. B. Bender, \$10; Miss Louise Bender, \$5; the Rev. Marshall Breneman, \$10; Margaret Howard, \$5; Dr. and Mrs. William F. Quillian, \$7.50; Mrs. George J. and Betty Jo Hill, \$5; Wednesday Bridge club, \$25; Major and Mrs. E. A. Miller, \$10; Lippy's store, \$10; Blocher's store, \$10; Mitchell's Restaurant, \$6; O. H. Benson, \$10; Mrs. Sarah E. Koer, \$5; Mr. and Mrs. James E. Moore, Jr., \$5; and Mr. and Mrs. Carl Martz, \$5.

It had previously been announced that the Bendersville Lutheran church had donated \$36.16 towards the Red Cross War drive. The credit for the donation should have been given to the Benders Lutheran church Sunday School.

ARREST DRIVER AFTER ACCIDENT

George L. Berkheimer, 24, East Berlin, suffered a contusion of the left knee early Tuesday evening when his car collided with a truck driven by William W. Horton, 22, New Oxford, in the square at East Berlin. Both men, according to Private John Micka of the state motor police who investigated the accident, stated they had green signals on the traffic light at the square.

Damage totaling \$250 occurred when Berkheimer's passenger car and the truck, which is being used to haul pipe for the government pipe line, collided. Private Micka took Berkheimer to Dr. W. H. Miller, New Oxford.

A charge of not having an operator's license was laid by the officer against Horton following the accident. The information was placed with Justice of the Peace Claude S. Straley, New Oxford.

SPOTTERS ARE FINGERPRINTED AND INSTRUCTED

More than 100 volunteer airplane spotters met Tuesday evening at the fire engine house to be fingerprinted, fill out identification cards, and receive instructions in their duties as spotters at the new aircraft warning service observation post on the roof of the First National bank building.

The new post will open Saturday afternoon at 2 o'clock and after that will be in service 24 hours a day. The new post will replace an observation post located along the Biglerville road.

Over 30 new spotters were inducted into the organization Tuesday night. About 50 of the spotters previously signed were unable to attend the session. They will receive identification cards and instructions in spotting at a meeting to be held Friday evening at 7:30 o'clock at the fire engine house, it was announced by Lawrence Sheads, sub-district aircraft warning system head.

Army Identification

Chief of Police Glenn Guise was in charge of the fingerprinting. Prints of all fingers of both hands were made on a special card which will be kept as a permanent file. The print of the right thumb was placed on the identification card filled out for each of the spotters. The identification cards were forwarded to army headquarters for the army seal after which they will be returned to the spotters.

The observers were warned by Mr. Sheads that no person will be allowed in the observation post without an identification card.

Nine have been added since the public meeting last Friday evening at the American Legion home when Judge Sheely and Captain Brame explained the purpose and requirements for the PRDC.

A charge of failure to yield the right of way was laid by state motor police against Charles J. Haar, 42, Hanover street, New Oxford, Tuesday afternoon after Haar's truck collided with another truck and trailer driven by Franklin Wagner, 32, Baltimore, midway between Hanover and Cross Keys.

The charge was laid by Private John Micka of the Gettysburg detail of the Pennsylvania motor police before Justice of the Peace Gerald Orndorff, Oxford township. The accident, which caused \$50 damage to the two trucks, occurred according to the officer, when Haar pulled out onto the Hanover-Carlisle road from the Green Springs road. Haar, police say, made a left hand turn to face south. Wagner, who also was going south, ran off the side of the road but was unable to avoid hitting the other truck. No one was injured.

The cans were hauled to Schwartz's warehouse, Carlisle street, where they will be loaded onto a freight car when a carload is accumulated.

Allies Continue Patrol Activity On Tunisian Front

By ROGER GREENE
Associated Press War Editor

Swept back 100 miles with the loss of eight key cities Russia's armies battled desperately to save the great prize of their 112-day-old winter offensive today as Adolf Hitler threw approximately 375,000 troop reinforcements into a counter drive against Kharkov and the upper Donets river valley.

The Germans are reinforced by approximately 375,000 men in 12 fresh divisions from western Europe and by 13 other divisions rested from the defeats of winter.

Axis Tank Loss Now 52

On the Tunisian front, Allied headquarters reported that Gen. Sir Bernard L. Montgomery's British 8th army had begun sharp patrol forays all along the 60-mile Mareth line in southern Tunisia after crushing six Axis counterattacks.

With Field Marshal Erwin Rommel's forces drawn back into the hills behind the Mareth works, hard hit by the loss of 52 tanks, it appeared that Gen. Montgomery was preparing to take the offensive and that a climactic assault on the Mareth defense system was near.

A communique from Gen. Dwight D. Eisenhower's headquarters said Allied patrols were also "extremely active" in northern Tunisia, particularly in the Sedjenane sector, 35 miles west of the big Axis Naval base at Bizerte.

In the Soviet campaign, while the Germans developed a tempestuous new drive around Kharkov, the Berlin radio acknowledged that Nazi troops had evacuated the key town of Bely 60 miles southwest of Rzhev on the Moscow front.

Bely is 180 miles west of Moscow and 60 miles northwest of Vyazma. Soviet capture of Bely would virtually outflank the German base at Vyazma, which was already under pressure by Red Army columns driving from three directions.

CRADLE OF NAZI PARTY HEAVILY BLASTED BY RAF

London, March 10 (AP)—Britain's biggest bombers took to the air last night to blast Munich, cradle of the Nazi party and seat of important war industries, in the 12th RAF assault upon the continent in 14 nights, it was announced today.

"Last night aircraft of the bomber command made a heavy attack on industrial objectives at Munich," a British Air Ministry communique said.

"Other aircraft bombed targets in western Germany and laid mines in enemy waters."

"Eleven of our aircraft are missing."

It was the second consecutive night that the RAF into southern Germany. The big British bombers made the 1,300 mile round trip raid to Munich after a heavy assault on Nuremberg Monday night in which Swiss reports said the old center of that Nazi party stamping ground was razed. Last night's attack in Munich was believed to have been at least as heavy.

Vital War Factories

The Germans in broadcasts early today admitted damage had been done in the Munich assault and complained that "cultural places" were damaged.

Munich, Germany's fourth largest city, besides being the site of the Nazi Brown House and other Nazi party headquarters buildings, has important locomotive and car repair shops, vital to Hitler's communications, a motor works, engineering shops and other plants producing submarine and airplane engines, armored cars and tanks.

The beer cellar in which the Nazi party was founded is in Munich.

The German broadcast, recorded by the Associated Press, said preliminary reports showed that 12 British planes had been downed, indicating that the raid probably was carried out on a large scale.

A Vichy broadcast, also heard by the Associated Press, reported that RAF planes were over northern and western France.

Munich was last raided by the RAF on the night of December 21, when numerous two-ton "blockbusters" and thousands of incendiaries were loosed on the city, railroad for the shipment of war supplies to Italy and North Africa. Twelve bombers were lost in that raid, in which vast fires were reported started.

The flight to Munich represents a round-trip of about 1,300 miles for Britain-based bombers.

U.S. PLANES HIT JAPS IN BURMA

New Delhi, India, March 10 (AP)—United States fighters, carrying light bombs and machineguns, yesterday resumed extensive attacks against Japanese installations in northern Burma, an American communique announced today.

Seven direct hits were scored on a bridge at Mogaung, cutting the north approach and leaving the center span sagging, and the town of Mogaung itself was showered with fragmentation bombs. A column of black smoke visible for 60 miles was believed to have come from a brown-up ammunition dump and oil depot.

Enemy landing fields at Kamauing and Manywet were strafed, and a convoy of 12 motor vehicles and buildings at Wasat and Tingpair were attacked from low altitude.

A fire was started at Maingwan and bombs were dropped on railroad installations at Myingyan. No American aircraft were lost, the communique said.

Pleasure Driving May Bring Unit Cut

Philadelphia, March 10 (AP)—The OPA warned today that violation of the ban on pleasure driving may result in further reduction of the value of gasoline ration coupons.

Sales during the current month are specially important for they determine to a great extent the future volume of canned goods to be handled by the respective establishments, the rationing board statement said.

Two WAACs Called "Perfect Specimens"

Minneapolis, March 10 (AP)—It just isn't so—Fort Worth, Texas, claims to the contrary—the "most perfect" WAAC is right here in Minneapolis.

And Colonel I. M. Madison of the Army is prepared to deploy his Army records to provide what the military calls defense in depth for the declaration.

Stung by claims from Fort Worth that a recruit—one Jane A. White—was the "most perfect physical specimen in the WAACs," Colonel Madison reconnoitered. His reconnaissance completed, he issued a communique containing this assertion:

Lieutenant Vera Joy Hooven, of Philadelphia, recently sent here to aid in recruiting WAAC auxiliaries, as the "most perfect" WAAC.

NEW SOLONS TO CHAT WITH FDR

Washington, March 10 (AP)—President Roosevelt will sit down and chat with the more than 100 new members of Congress tonight at an informal "after dinner" affair widely interpreted in both parties as a move to improve relations between the White House and Capitol Hill.

The President sent out invitations to the unusual gathering several weeks ago, shortly after some 40 new Democratic House members banded together to obtain more recognition in the formulation of legislative policies and at a time when House Republicans appeared to be having their own way on many roll call votes.

Since then the White House has emphasized that the get-together will be a social and not a political affair and has pointed out that Republicans as well as Democrats are invited, including the leaders of both parties.

Nevertheless, Rep. Martin of Massachusetts, leader of the House minority which was augmented in the last elections to within nine of a clear majority, commented today that the President apparently was "extending a little olive branch" to Congress.

Ask Increase On Dairy Ceilings

Washington, March 10 (AP)—Senators investigating reports of the wholesale slaughter of dairy cattle for beef called today for an immediate increase in ceiling prices of dairy products to a level high enough to prevent shortages.

Asserting that some high government officials had displayed an apparent lack of familiarity with the dairy industry in freezing prices, a Senate agriculture subcommittee sharply suggested that industry representatives be heard in the future when such problems are under consideration.

FULL-FLEDGED AIR FORCE FOR U.S. IN CHINA

(By The Associated Press)

Creation of a full-fledged U. S. Air Force command in China, fulfilling a hope long cherished by the Chinese, was officially announced today and some quarters declared it marked the beginning of a new phase in the war against Japan.

Military observers said the announcement clearly indicated a sizeable expansion of American air power in the China theater and possibly heralded new bombing attacks on Japan.

Heretofore, China has had the services of only part of the 10th U. S. Air Force, with headquarters in India.

Under the new setup, the newly activated 14th U. S. Air Force under the command of Brig.-Gen. Claire L. Chennault will replace the old China air task force.

Strike at Burma

On the far Pacific fighting fronts, American-built Liberator bombers of the RAF attacked enemy positions in Japanese-occupied Burma, while Japan showed a resurgence of aerial strength in the New Guinea theater.

Gen. Douglas MacArthur's headquarters said a formation of 26 Japanese bombers and 21 fighters attacked the Allied mountain outpost at Wau in New Guinea yesterday, but caused only light casualties and small damage.

Wau lies 35 miles southwest of the big enemy base at Salamaua, the target of a drive by American and Australian troops since their conquest of the Papuan peninsula in the south.

In Burma, the RAF blasted rail yards at Prome for 90 minutes, setting large fires, and strafed Japanese troops near Akyab on the Bay of Bengal coast.

LEND-LEASE TO RUSSIA WILL BE CONTINUED

Washington, March 10 (AP)—Out of the international uproar over American Lend-Lease aid to Russia, one fact emerged clearest today—that the House will approve continuous of the program for another year. And probably by an almost unanimous vote.

The roll will be called late today after debate on several proposed amendments.

Even though Republican and Democratic leaders expressed confidence the bill would win overwhelming approval, the assertion of U. S. Ambassador William H. Standley in Moscow that the Russian people are not being told the full story of American aid still excited comment. Reaction in Congress was mixed.

It ranged from the suggestion of Chairman Sumners (D-Tex.) of the House Judiciary committee that this nation "be patient," to the statement of Senator Wheeler (D-Mont.) that "Stalin is a realist—he's for Russia first and last." Senator Wiley (R-Wis.) called it all a "tempest in a teapot."

New Developments

Teapot tempest or not, these developments followed Standley's statements:

1. Undersecretary of State Sumner Welles said he had called Standley for a text of his remarks, and emphasized to reporters that they were made without consultation with Washington.

2. The Moscow radio broadcast the complete text of a recent Lend Lease report listing the amount and nature of war supplies shipped from the United States to Russia.

3. From London came unofficial reports that negotiations already are underway for talks among the United States, Great Britain and Russia for an immediate understanding on post-war problems.

4. A comment by Wendell Willkie, Republican nominee in the last Presidential election and recent visitor to Russia, that "I know of no Russian who is ignorant of the fact that we are helping her with materials and by our fighting on other fronts."

Pittsburgh Fears Axis Air Assault

Pittsburgh, March 10 (AP)—Fearing that this steel center may soon become the target of Axis bombers, the Allegheny county Council of Defense today forwarded a request to the U. S. Army for a confidential report on steps taken to protect the area from air attack.

The council also asked the state Legislature to provide workmen's compensation benefits for air-raid wardens or other defense volunteers hurt in performance of duties.

The action was taken after county commission Chairman John J. Kane declared he was convinced Pittsburgh is high on the enemy list of bombing targets.

The county commission approved a \$35,000 budget for civilian defense next fiscal year as compared with \$19,000 this year.

SENATOR WARNS OF "DISASTER"

Washington, March 10 (AP)—Declaring that a crop shortage this year "might bring disaster," Senator Revercomb (R-W. Va.) urged the Senate today to vote for blanket deferment of all farm workers.

Conceding that enactment of such a law would be only a stopgap until an overall decision on the use of the nation's manpower is reached, he pointed out that crops grow in season not to suit the convenience of Congress, and "the time for planting is at hand."

"Action must be taken at once on this subject or it must be forgotten for 1943," he declared in a speech before the Senate.

"A crop shortage in 1943, with the immense feeding program that we have undertaken, would place us in a dangerous position. It might bring disaster. Men with empty stomachs cannot fight, and a hungry people cannot be a strong people."

ASK REVERSAL OF COURT ORDER

Washington, March 10 (AP)—The Supreme court was asked today to override its 5-to-4 decision of last June that the exercise of free speech, press and religion may be limited by legislative bodies "to times, places and methods x x x not at odds with the preservation of peace and good order."

Reargument was due in a case upholding the constitutionality of municipal license taxes on the sale of literature.

Should the decision be overruled, it will constitute one of the quickest Supreme court reversals in many years.

The court agreed to reconsider the ruling after Justice Byrnes resigned to become economic stabilization director. The request for reargument came from members of the religious organization "Jehovah's Witnesses" who had been convicted of violating the contested ordinances in Opelika, Alabama; Fort Smith, Arkansas; and Casa Grande, Arizona.

He is accused of filing a false return on the amount of distilled spirits in his possession Nov. 1, 1942, the date on which a tax of \$2 per gallon was due. The government alleges Nowak's return showed he had 16 gallons although he actually possessed 78 gallons.

Athletics Play Important Role On Malta, Termed Most Bombed Spot Of War

BRITISH ISLE RETAINS FULL SPORT PROGRAM

Philadelphia, March 10 (AP)—The enemy has tossed plenty of bombs around on Malta—called the most blasted spot in the world—but there've been more soccer and tennis balls hurled there during this war than explosives.

Commander J. S. Barry of the British Royal Navy Submarine Forces said so yesterday, in emphasizing the value of competitive sports in the training and conditioning of fighting men.

Commander Barry spoke before the Philadelphia Optimist club after Lieut. J. B. Bengston, USN Bureau of Aeronautics, voiced a plea for the continuance of competitive athletics, which he said make young men better subjects for training in all branches of warfare.

Value Program
"Perhaps you'll find it hard to believe, but sports still go on in Malta," Commander Barry said. "Dugouts or air-raid shelters are handy to the football fields. That'll give you an idea of the value we put on sports."

"Four days after the British had chased the Italians out of Somaliland, the British Navy had constructed a football (soccer) pitch. British and American servicemen have engaged in athletics at every port at which I have ever stopped."

Lieutenant Bengston, stationed at the Iowa Pre-Flight Training School, said the Navy had found that athletics "develop stamina, agility, and above all the will to win."

Easier To Train
"Men who have engaged in body contact sports, such as football, and boxing, are much easier to train."

"Boxing teaches our boys how to take a hard wallop and come back for more."

"Football, in which every pilot candidate must compete, builds confidence."

"Soccer develops endurance and coordination, and swimming is of vital importance."

"It has already been adequately proved that people in good physical condition think better and fight better than those physically untrained."

SPORTS ROUNDUP

By HUGH FULLERTON, JR.

New York, March 10 (AP)—With a Brooklyn outfield squad composed of 41-year old Johnny Cooney; Paul Waner, who'll be 40 before the season starts, Lloyd Waner, 39, Dixie Walker, 32, and Joe Medwick 31, boss Branch Rickey might be accused of trying to work an old Dodger on the fans. . . . It's a little different with the Indians, who farmed Ted Sczespowski out to Baltimore so he could finish his high school course before being inducted into the Army. . . . Johnny Cooney's son busted a hand recently knocking a fellow out. He'll never be a Dodger is he's that brittle. . . . What price victory? It cost the NYU track team two bucks to fill the IC4-A trophy with beer so they could toast last Saturday's triumph.

IT BURNED HIM UP
When George Von Elm, former National Amateur golf champion, shot a wild one into a trap at Los Angeles Lakeside course recently, he found his ball had rolled into a paper bag. . . . George isn't used to being in traps, or bags either, but the situation didn't stump him. . . . He merely lighted a match, burned the bag and then played his shot. . . . Wonder if the match could be counted as his 15th club?

POSTMAN'S PARAGRAPH
A bit too late, Jack Miller of the Independence, Kas., Army Basic Flying School, points out that those Iowa Pre-Flight cadets who accomplished 1,000 sit-ups each didn't set any record. . . . The mark, he says, is 1,600 and was made years ago by Dr. James E. Barnes of Youngstown, O., president of the Ohio Association of Boxing commissions. . . . Navy Cadet Sam Sturgis now has raised it to 2,003, so the Doc no longer holds the record, but he's still able to sit up and take notice of such things. . . . And Neale Patrick, former Raleigh, N. C., sports scribe turned sailor, asks how come George Senesky of St. Joseph (Philadelphia) got credit for a basketball scoring record by beating Stutz Modelzewski's season mark of 509 points when North Carolina's George Glamaek hit 578 in 1941. . . . This dept. will stand by Brooks Abramovic and his 700-odd points for Salem (W. Va.) until someone tells just how to draw the line between "big time" and "small time" basketball.

TODAY'S GUEST STAR
Paul Menton, Baltimore Evening Sun: "The state Senate committee of Arkansas didn't pass a law making the University of Arkansas hire a \$12,500 football coach; it simply recommended it. And there's more to the recommendation. The new coach's job is to produce a skilled, colorful and victorious team. That's a tough enough job in the South-west conference in peacetime without tackling it now."

HOME SWEET HOME
Emil Von Eiling, who has developed two great mile runners at New York university in the past few years, can thank their parents for the chance. Leslie MacMitchell chose NYU because his mother didn't want him to go out of town to college and Frank Dixon went there because his dad had the same idea.

SERVICE DEPT.
Two former all-America linemen from Michigan, Butch Slaughter and Ralph Heikinen, have turned from football coaching to teaching aerial navigation at the University of Virginia Navy Flight Preparatory School. Head Coach Frank Murray and basketball Tutor Gus Tebell are teaching the same subject, which has nothing to do with forward passing. . . . Hold Rast, ex-Alabama end, is Maj. Gen. Jimmy Doolittle's liaison officer in northern Africa. . . . Pvt. Norman Rubio, who's scheduled to fight Joe Agosta on the Sammy Angott-Willie Pep card here March 19, is stationed at Fort Riley, Kas., which also is known as Joe Louis' headquarters.

KIMBALL SIGNS
Brooklyn, March 10 (AP)—Pitcher Newell Kimball, who won two and lost none for the Brooklyn Dodgers last year, has signed his 1943 contract. He is the thirteenth Dodger to agree to terms.

ELMIRA, UTICA JOIN EASTERN BASEBALL LOOP

Albany, N. Y., March 10 (AP)—Eight clubs will compete in the Class A Eastern baseball league this season, President Tommy Richardson indicated today, adding he plans to complete franchise arrangements with Utica and Elmira tomorrow.

The Elmira Pioneers, who previously announced they were withdrawing from Eastern for the duration, need only a board of directors to be ready to start, Richardson said. Financial arrangements already have been made.

Meanwhile the Utica Braves of the suspended Class C Canadian-American circuit are ready to take over the franchise of the Williamsport, Pa., team, which also had dropped out, at least until the war's end. Richardson said he expects to complete this deal and one with Elmira tomorrow.

Eight Members
Had Elmira been unable to compete, Utica would not have been able to play and the circuit would have operated on a six-team basis. Now, in addition to the Braves and Pioneers, the loop will consist of Albany and Binghamton, N. Y.; Wilkes-Barre and Scranton, Pa.; Hartford, Conn., and Springfield, Mass.

Richardson said he expected the teams will have their spring training sites selected by April 4 at the latest, adding Scranton already has chosen its location, the field and gymnasium of the Bloomsburg, Pa., normal school, 50 miles from the home field.

He also announced a meeting of all Eastern club owners in New York city Sunday to complete plans for opening the season May 4.

LOWER MERION, HAZLETON WIN

Philadelphia, March 10 (AP)—Lower Merion, defending PIAA basketball champion and perennial ruler of District 1, blasted Pottstown out of the running for the district title before 5,000 fans at the Palestra last night, winning 53-30.

Meanwhile Chester whipped Quakertown, 22-18, despite unexpectedly strong opposition, and won the right to meet the champs for the district title.

At Allentown, Hazleton, Eastern league champion, advanced to the final round in District 11 by trouncing Palmerton, 47-32, before 1,800 in the Little Palestra.

Pottstown took the lead soon after the starting whistle in its fight against Lower Merion. Clarence High shot a goal and Henry Stofko tossed a foul. But Lower Merion came back on a goal by Greer Heindel and a foul by Don Evans.

A nip-and-tuck battle followed until mid-way in the second period when the champions began a steady climb that eventually left their opponents far behind.

SENESKY POPULAR

Philadelphia, March 10 (AP)—George Senesky, St. Joseph's college basketball star who has just set a new national collegiate individual scoring record of 515 points for one season, was mobbed by autograph seekers while watching playoffs in a scholastic league. His coach, Billy Ferguson, and aides had to escort him through the crowd to another part of the stands.

The Phillies yesterday traded Albin Glossop and Lloyd Waner to the Brooklyn Dodgers for Babe Dahlgren.

Chicago, March 10 (AP)—Chicago will have its six-horse race meetings again this season, but only three tracks will be involved.

The shift from the two outlying tracks was made in order to cooperate with government transportation regulations.

WANERS TO BE TOGETHER FOR THIRD TIME

By HAROLD CLAASSEN
New York, March 10 (AP)—The Brooklyn Dodgers, known in pre-war days as the Dodgers, have brought the Waner brothers together for the third time on a major league baseball club.

The outfield act that wowed the fans for 14 years in Pittsburgh and for a short time in Boston now is going into a rehearsal for a Brooklyn appearance. Paul was picked up during the winter as a free agent and Lloyd was acquired yesterday in the trade that sent Babe Dahlgren to Philadelphia.

Paul, older by four years and now approaching 40, joined the Pittsburgh club in 1926 and preceded his brother to the big top by one season.

For years the pair has been known as "Big and Little Poison," a nickname picked up when the Pirates of 1927 battled the New York Yankees in the World Series and a Pittsburgh fan, not too familiar with the Buccaners, in a heavy accent asked a fellow spectator to identify the "big person on our club."

Has 3,000 Hits
Paul, now one of three National league players ever to connect for 3,000 hits, was pointed out and his younger brother, automatically became "Little Poison."

It was during this season that Paul won the first of his three league batting championships and was declared the loop's most valuable player. And it wasn't their fault that the Pirates lost the world title in four straight to the Yankees as Lloyd batted 400 in the series and Paul 333.

The Waners, Oklahoma products like the Dean brothers of St. Louis Cardinal fame, bear little resemblance to ball players. They are slight, dapper fellows and neither, swinging his favorite bat, will push the scales to 160 pounds.

Neither has the habits of a ball player, Paul frankly admitting that he sometimes goes an entire week without eating a steak.

Sugar and cocoa-bean products normally constitute more than 50 per cent of the raw materials used by the confectionery industry.

Ford City Wins Over Ambridge

Pittsburgh, March 10 (AP)—Defeating a hard-fighting five from Ambridge 29 to 25, Ford City high school last night qualified for the final round of the WPIAL Class A basketball championship tournament.

The victors replaced an old sectional rival, Arnold, last year's champs, in making their 16th tournament appearance and now are bidding for their third title.

Winners in 1937 and 1938, Ford City will clash in the finals on Saturday night with the survivor of the Scott-Greensburg.

Father Of Twins Ruled Delinquent

Philadelphia, March 10 (AP)—Philip Mancuso, 25-year-old father of seven-months-old twins, is officially a delinquent in the draft today, and the government plans to appeal immediately from a United States district court decision requiring his draft board to give him a "full and fair hearing."

Board No. 1 ruled him a delinquent yesterday after he failed to report for induction. Just before the board acted, state Selective Service headquarters upheld his 1-A classification.

Mancuso admits he married after the national emergency was proclaimed and thus cannot be considered by the board to have dependents. He contends, however, that the board did not ask him questions at a hearing before he was reclassified from 3-A.

A gasoline and tire conservation regulation restricting cruising of taxicabs in Buenos Aires, Argentina, caused a two weeks taxi strike.

Ortiz To Defend Title Tonight

Oakland, Calif., March 10 (AP)—Manuel Ortiz climbs through the ropes tonight as the 2 to 1 favorite to defend his NBA bantamweight championship against the man he won it from, the veteran Lou Salica of Brooklyn.

Youth and more socko were on the side of the aggressive Mexican boy from El Centro, Calif., who won the title from Salica in Hollywood last August. Only the New York Athletic commission failed to recognize Ortiz as the champ, on the grounds the bout was over 12 rounds instead of 15.

Tonight's affair is billed for 15 to satisfy all concerned, and is the first long-distance title fight in California since 1914.

An Evening Thought

Our deeds determine us, as much as we determine our deeds.—George Eliot.

Just Folks
By Edgar A. Guest

ASH WEDNESDAY, 1943

Forgive us for the sin of pride.
Of precious hours in idling spent;
Of having small delights denied
And giving way to discontent;
For every selfish thought and deed
Lord Thy forgiveness now we plead.

Forgive us, gracious Father, all
The lack of faith so oft displayed;
The grumbling over hardships small;
The greater sin of being afraid.
Take from us every selfish strain
And make us clean and whole again.

Upon this Pulver Day we pray
Forgiveness for our failures all.
Grant us to be as true as they
Who dare to die at freedom's call.
Absolve us, if by doubts assailed,
To serve Thy purpose we have failed.

Forgive us if we've once forgot
The perils of the sky and sea
Or, bickering, have remembered not
The brave who die for liberty.
Father, forgive us every wrong,
And make us pure of heart and strong.

WARMTH GLOW

Now that springtime is around the corner, there is a hint of glow about the earth. Soon the warm winds, the sunshine, the opening buds and leaves will give a glow to the entire day.

There is always such a warmth glow of the sunlight upon calm me—especially during the long summer nights. I like to watch the lengthening shadows and the changing colors of the sunset. I like the glow of the sunlight upon calm waters. I like the glow of light as it distributes shadows in a room.

People have a warmth glow about them—some people do. Their very presence in a room is evident the moment they enter. And there is a glow of mind that many people have that draws them to you and makes you want them as friends.

There is a glow, or lustre, about the human heart that is not to be compared to any other warmth glow. It permeates. When words fail, then that glow lights up everything, and explains so much.

There is a warmth glow about every life that has great purpose behind it—that is wrapped in unselfish desire.

Enthusiasm always has a warmth glow about it, a crystallization of faith, and a gathering of neglected forces centered upon one determined objective.

A glow of warmth is often found to diffuse an entire book. So much so that each page leads you to the next—and when the entire book is finished, a glow is felt all through you.

A mother's love is always full of warmth glow—as, indeed, is all love. Beauty is almost another name for glow, for it thrills you, lifts you—and washes out your mind and heart, like a fresh spring rain.

Tomorrow Mr. Adams will talk on the subject: "The Art of Pleasing."

ASKS CURFEW LAW

The March grand jury recommended a year around curfew of 11 p. m. for youths under 18 and a 9:30 p. m. curfew during the summer for those 16 and under.

Stimson Calls For Greater Efficiency In Industry

SAYS IT'S MORE ESSENTIAL THAN REDUCING ARMY

Washington, March 10 (AP)—Warning against "the danger of meddling" with the program for an army of 8,200,000 Secretary of War Stimson urges greater efficiency in industry rather than reduction in the size of the armed forces.

An attitude of "trying to win the war in some easy manner and without too much sacrifice," he said in a radio address last night, has been responsible for much of the criticisms directed against the size of the army.

To curtail the size of the army would interrupt the process for training forces, and in turn, he said, would disrupt the plan for winning the war.

Careful Planning

"Plan and process are tied together," he continued. "The plan contemplates a succession of carefully directed blows at our enemies. The size and character of these blows and the aggregate forces which are necessary have been carefully thought out. Just as our present offensives are being carried out by men who have been through a year's training, the men now being brought into the army are to be trained for campaigns a year ahead.

"Our main object is to continuously build up a force which will strike without interruption and with cumulative effect. That purpose can be thwarted by a mistake now."

He said that critics who ask a slowing up or interruption of the training program "fail to realize the far reaching effect of interruption" and declared:

"It is the duty of every citizen," he continued, "to examine his own life and his own community and see whether production in industry and on the farm cannot be increased enormously in efficiency, whether absenteeism, threatened strikes, general complacency, insistence on 'business as usual,' or even insistence on hoped-for standards of living, are not going a long way to prevent what could be accomplished by an all out war effort."

Flashes of Life

SUBWAY DRAMA

New York (AP)—A tall woman stood on a subway platform near a news stand waiting for a train. The news agent, dusting his wares, suddenly stopped and asked, "say, aren't you Mrs. Roosevelt?"

"Yes, I am," was the reply.

"How do you do?"

The train came in, the first lady got aboard and the news agent went on dusting.

SCHOOLBOY BLITZ

Memphis, Tenn. (AP)—Arthur C. Smith, 16, took to school some homemade torpedoes he concocted with chemicals. Striding down the corridor, he swung a book too close to the pocketful of explosives.

Results: A loud roar, a shattered window, torn trousers and a burned leg. Smith wasn't seriously hurt.

KNOCKOUT

Denver (AP)—Police helped a soldier climb out of a 14-foot-deep sidewalk coal hole.

"Where'd she go?" demanded the soldier, Pvt. Louis M. Henriquez of Camp Carson, Colo.

"Who?" asked the patrolmen.

"That cute little number in the green hat. She smiled at me."

THIS RESTRICTIVE ERA

Kansas City (AP)—Lieut. Barney Mahoney of the Police Traffic division stared again at the ticket mailed in by a motorist.

There, plain as could be, was the charge against Jack E. Kolimann: "Running a green light."

Mahoney cancelled it.

REDISTRICTING OF STATE HITS PHILADELPHIA

Harrisburg, March 10 (AP)—A new Congressional reapportionment bill began moving through the Pennsylvania Senate today after Governor Martin said such a plan was "almost a certainty" at this session of the assembly.

The proposal, endorsed by the Republican majority, would restore the set-up in effect before 1942, except that the number of Congressional districts in Philadelphia would be reduced from seven to six, leaving a total of 33 as required by the 1940 census.

"I would say that's the only reapportionment bill that has a chance of getting through," declared Senator B. B. McGinnis, Democratic floor leader. "I haven't seen the bill, but it all depends on how fair they are in reapportioning the six districts in Philadelphia. If they are fair, it should pass all right."

Cut One District

The state's Congressional delegation was cut from 34 to 33 members by the 1942 special session which enacted a law to wipe out one district in the northern tier and one in Allegheny county with one Congressman-at-large to be elected.

The act was the result of a compromise under which each party agreed to give up one district. At that time the Democrats controlled the House and the Republicans the Senate. Now the GOP has a majority in both Houses.

ADAMS IS CHIEF AIR RAID WARDEN

Harrisburg, March 10 (AP)—Colonel Lynn G. Adams will succeed Ralph E. Flinn of Pittsburgh as chief air raid warden of Pennsylvania.

The former state police commissioner was elected to the post on Monday by the State Defense Council. A. Boyd Hamilton, deputy defense director, was designated at the same time to serve as commander of the state control center.

The council elected Alfred S. Holt of the Department of Public Instruction as its chief of training; John H. Murdoch, Jr., state water supply co-ordinator, and Mrs. Benjamin Ludlow, chairman of the advisory committee on child care.

WORK OR FIGHT

Reading, Pa., March 10 (AP)—Reading Draft Board No. 4 issued its own "work or fight" order Tuesday, serving notice that it will reclassify for induction any war worker in class 2-A, 2-B or 3-B whom it adjudges guilty of absenteeism.

Chairman Irving C. Hanner said there had been widespread absenteeism here and asked plants to report future cases.

parents, Mr. and Mrs. Emory Rosensteel, of Round Top.

Lieutenant Albert Bell, who is stationed at Camp Dix as a chaplain is spending several days with his family here.

Dorsey W. Sowers, of Camp Meade, spent Sunday at his home at McKnightstown.

Fred Faber has returned to his home on Chambersburg street, after a visit with friends at Blue Ridge Summit.

Dr. J. Calvin Hartman has returned to Germantown after a brief visit at the home of Mr. and Mrs. J. Frank Hartman on Hanover street.

War production schedules have been set high but our whole American industrial tradition proves that they are not impossibly high.

AGREE TO GIVE MARTIN POWERS ON WAR EFFORT

Harrisburg, March 10 (AP)—Authority to suspend or modify Pennsylvania laws interfering with the war effort will be given Governor Martin under plans agreed upon by Republican and Democratic chiefs.

Emphasizing he wasn't attempting to grab unlimited power, Martin explained to a conference of legislative and party leaders yesterday that he proposed the step at the insistence of federal officials who will determine laws to be suspended.

Former Governor Arthur H. James sought similar authority from the 1942 special legislature but leaders of both parties bolted on the claim it would give the Governor too much power.

Restrict Powers

James sprang his proposal as a surprise in an address to the Legislature, calling for blanket powers to set aside laws. Martin sounded out opposing legislative leaders before calling the conference to request definite action.

Under legislation to be drawn up by Attorney General James H. Duff and jointly sponsored by Republican and Democratic parties Martin would be authorized to lift restrictive statutes only when the assembly is not in session.

He would be unable to act under the proposal until requested to do so by the President, secretaries of War or Navy or the U. S. attorney general. Any such federal request also would have to carry a statement from the U. S. attorney general certifying its necessity.

Transportation Problem

Some of those at the conference said Martin was concerned with the immediate problem of facilitating transportation of heavy armaments over state highways. It was generally conceded the impending power grant would relax legal speed and weight limits on big trucks.

Attending the session with the Governor were Republican Chairman M. Harvey Taylor; Democratic Chairman David L. Lawrence; Attorney General Duff; Weldon R. Heyburn, Senate Republican leader; Bernard B. McGinnis, Senate Democratic leader; Franklin H. Lichtenwalter, House Republican leader; and Reuben E. Cohen, Democratic House leader.

Leaves Bulk Of Estate To Hospital

Pittsburgh, March 10 (AP)—James J. Martin, of Pittsburgh, an uncle of Governor Edward Martin, left much of his \$121,850 estate in trust for the Greene County Memorial hospital and other charitable uses, his will disclosed Tuesday.

Martin died February 13 in Tucson, Arizona. After putting aside \$5,000 cash for the Martha Moor Martin Memorial fund, the will distributes one half of the remainder to relatives and individuals and the other half in trust to perpetuate the memory of his mother, Martha Moor Martin.

BILL PROPOSES TO PUNISH ALL WAR SABOTEURS

Harrisburg, March 10 (AP)—Any-one convicted of delay, or interfering with production and transportation of war material would be liable to a \$3,000 fine and six years in jail under a bill introduced in the House by Rep. David N. Denman (R-Westmoreland), who emphasized it was "not an anti-labor proposal."

The preamble of the bill read: "The date of the unconditional surrender of the Axis powers will, in the last analysis, be fixed by the speed with which munitions of war are produced. Every shut-down, every delay and every moment of lost time will give aid and comfort to our enemies in affording them advantages enabling them to prolong their resistance to inevitable defeat."

Close 10 Hospitals

The Senate meanwhile received a measure which would discontinue state operation after June 1, 1944, of ten state-owned medical and surgical hospitals as recommended by Governor Martin in his budget message. The bill was introduced by Senator George Woodward (R-Phila.) and proposes that the state lease or sell the institutions.

Martin estimated the cost of operating the hospitals during the next two years at \$3,750,000. They are situated at Ashland, Blossburg, Condale, Connelville, Hazleton, Locust Mountain, Nanticoke, Scranton, Phillipsburg and Shamokin.

COURT ORDERS HEARING FOR TWINS' DADDY

Philadelphia, March 10 (AP)—Philip Mancuso, 25-year-old father of seven-months-old twins, won the first round of a fight against Army induction Tuesday with the help of a precedent-making Federal court ruling, but he still had no assurance that his deferment would last more than a few days.

In a decision described as the first of its kind, U. S. District Judge George A. Welsh ordered a "full and fair hearing" by Mancuso's draft board—and the board deferred induction pending a ruling from state selective service headquarters on whether it should obey.

Mancuso argued that the board, in reclassifying him, gave him an unfair hearing, asking him no questions and saying only that he was being classified 1-A because he had married after the national emergency was proclaimed.

Court Aroused

Assistant U. S. Attorney Edward Kalliek told Welsh his decision meant that "there will be thousands of cases like this brought into this and other courts throughout the country."

AGREE TO GIVE MARTIN POWERS ON WAR EFFORT

Harrisburg, March 10 (AP)—Authority to suspend or modify Pennsylvania laws interfering with the war effort will be given Governor Martin under plans agreed upon by Republican and Democratic chiefs.

Emphasizing he wasn't attempting to grab unlimited power, Martin explained to a conference of legislative and party leaders yesterday that he proposed the step at the insistence of federal officials who will determine laws to be suspended.

Former Governor Arthur H. James sought similar authority from the 1942 special legislature but leaders of both parties bolted on the claim it would give the Governor too much power.

Restrict Powers

James sprang his proposal as a surprise in an address to the Legislature, calling for blanket powers to set aside laws. Martin sounded out opposing legislative leaders before calling the conference to request definite action.

Under legislation to be drawn up by Attorney General James H. Duff and jointly sponsored by Republican and Democratic parties Martin would be authorized to lift restrictive statutes only when the assembly is not in session.

He would be unable to act under the proposal until requested to do so by the President, secretaries of War or Navy or the U. S. attorney general. Any such federal request also would have to carry a statement from the U. S. attorney general certifying its necessity.

Transportation Problem

Some of those at the conference said Martin was concerned with the immediate problem of facilitating transportation of heavy armaments over state highways. It was generally conceded the impending power grant would relax legal speed and weight limits on big trucks.

Attending the session with the Governor were Republican Chairman M. Harvey Taylor; Democratic Chairman David L. Lawrence; Attorney General Duff; Weldon R. Heyburn, Senate Republican leader; Bernard B. McGinnis, Senate Democratic leader; Franklin H. Lichtenwalter, House Republican leader; and Reuben E. Cohen, Democratic House leader.

Flashes of Life

SUBWAY DRAMA

New York (AP)—A tall woman stood on a subway platform near a news stand waiting for a train. The news agent, dusting his wares, suddenly stopped and asked, "say, aren't you Mrs. Roosevelt?"

"Yes, I am," was the reply.

"How do you do?"

The train came in, the first lady got aboard and the news agent went on dusting.

SCHOOLBOY BLITZ

Memphis, Tenn. (AP)—Arthur C. Smith, 16, took to school some homemade torpedoes he concocted with chemicals. Striding down the corridor, he swung a book too close to the pocketful of explosives.

Results: A loud roar, a shattered window, torn trousers and a burned leg. Smith wasn't seriously hurt.

KNOCKOUT

Denver (AP)—Police helped a soldier climb out of a 14-foot-deep sidewalk coal hole.

"Where'd she go?" demanded the soldier, Pvt. Louis M. Henriquez of Camp Carson, Colo.

"Who?" asked the patrolmen.

"That cute little number in the green hat. She smiled at me."

THIS RESTRICTIVE ERA

Kansas City (AP)—Lieut. Barney Mahoney of the Police Traffic division stared again at the ticket mailed in by a motorist.

There, plain as could be, was the charge against Jack E. Kolimann: "Running a green light."

Mahoney cancelled it.

REDISTRICTING OF STATE HITS PHILADELPHIA

Harrisburg, March 10 (AP)—A new Congressional reapportionment bill began moving through the Pennsylvania Senate today after Governor Martin said such a plan was "almost a certainty" at this session of the assembly.

The proposal, endorsed by the Republican majority, would restore the set-up in effect before 1942, except that the number of Congressional districts in Philadelphia would be reduced from seven to six, leaving a total of 33 as required by the 1940 census.

"I would say that's the only reapportionment bill that has a chance of getting through," declared Senator B. B. McGinnis, Democratic floor leader. "I haven't seen the bill, but it all depends on how fair they are in reapportioning the six districts in Philadelphia. If they are fair, it should pass all right."

Cut One District

The state's Congressional delegation was cut from 34 to 33 members by the 1942 special session which enacted a law to wipe out one district in the northern tier and one in Allegheny county with one Congressman-at-large to be elected.

The act was the result of a compromise under which each party agreed to give up one district. At that time the Democrats controlled the House and the Republicans the Senate. Now the GOP has a majority in both Houses.

ADAMS IS CHIEF AIR RAID WARDEN

Harrisburg, March 10 (AP)—Colonel Lynn G. Adams will succeed Ralph E. Flinn of Pittsburgh as chief air raid warden of Pennsylvania.

The former state police commissioner was elected to the post on Monday by the State Defense Council. A. Boyd Hamilton, deputy defense director, was designated at the same time to serve as commander of the state control center.

The council elected Alfred S. Holt of the Department of Public Instruction as its chief of training; John H. Murdoch, Jr., state water supply co-ordinator, and Mrs. Benjamin Ludlow, chairman of the advisory committee on child care.

WORK OR FIGHT

Reading, Pa., March 10 (AP)—Reading Draft Board No. 4 issued its own "work or fight" order Tuesday, serving notice that it will reclassify for induction any war worker in class 2-A, 2-B or 3-B whom it adjudges guilty of absenteeism.

Chairman Irving C. Hanner said there had been widespread absenteeism here and asked plants to report future cases.

parents, Mr. and Mrs. Emory Rosensteel, of Round Top.

Lieutenant Albert Bell, who is stationed at Camp Dix as a chaplain is spending several days with his family here.

Dorsey W. Sowers, of Camp Meade, spent Sunday at his home at McKnightstown.

Fred Faber has returned to his home on Chambersburg street, after a visit with friends at Blue Ridge Summit.

Dr. J. Calvin Hartman has returned to Germantown after a brief visit at the home of Mr. and Mrs. J. Frank Hartman on Hanover street.

War production schedules have been set high but our whole American industrial tradition proves that they are not impossibly high.

Leaves Bulk Of Estate To Hospital

Pittsburgh, March 10 (AP)—James J. Martin, of Pittsburgh, an uncle of Governor Edward Martin, left much of his \$121,850 estate in trust for the Greene County Memorial hospital and other charitable uses, his will disclosed Tuesday.

Martin died February 13 in Tucson, Arizona. After putting aside \$5,000 cash for the Martha Moor Martin Memorial fund, the will distributes one half of the remainder to relatives and individuals and the other half in trust to perpetuate the memory of his mother, Martha Moor Martin.

POST-WAR FEAR IS STRENGTH OF SOVIET RUSSIA

By DEWITT MACKENZIE

Admiral William H. Standley, our ambassador to Russia, seems to have broached a keg of strong liquor when he stated in Moscow that he didn't think the Russian people were being told the complete story of American aid to their country, and that "there's no question about the Soviets trying to create the impression abroad, as well as at home, that they are fighting the war alone."

This acquired an added potency, which set some eyes in Washington to watering, because it was almost coincident with Vice President Wallace's declaration that "unless the western democracies and Russia come to a satisfactory understanding before the war ends, I very much fear that World War No. 3 will be inevitable."

Fear Red Strength

That impels me to record here some facts noted during my recent trip abroad. I found that one of the anxious queries in the minds of a host of people, from Britain right through to Chungking, is just what role the Soviet Union is likely to play after the war.

In other words, they're wondering whether the United Nations will remain united, or whether circumstances will decree that mighty Russia shall operate as a lone wolf. This question cropped up persistently and earnestly wherever I went. What I found wasn't so much a definite suspicion that things were likely to go wrong, as real fear that they might. On only one point was certainty expressed, and this was unanimous so far as my observations went.

Power In Europe

This was that Russia seemed bound to emerge from the war as the dominant power of Europe—and most likely of Asia as well.

Out of that grew the question of how far Allied unity would be able to adapt itself to this new situation. What would be the attitude of John Bull, erstwhile policeman of Europe, and Uncle Sam and all the rest? What would be the attitude of Russia herself, with all this power in her hands?

It's easy to draw this picture of Russia out of the materials at hand. Germany, which before the war had almost complete politico-economic control of central and eastern Europe and the Balkans, is on her way out. Who should take her place but the adjacent Soviet Union, which has astounded the world by its industrial and military development during the past fifteen years?

European Giant

The belief is widespread in the capitals I visited that the Muscovites will dominate Europe westward at least through Germany, and maybe to the English channel. I'm speaking now of political and economic domination, for it isn't suggested that the Soviet intends to employ military strength.

The whole Russian set-up encourages such speculation. Here we have what in area is the largest country in the world. It stretches across two continents, from Europe to the Pacific, its boundaries touching the record populations of India and China—both vital in the United Nations set-up.

This huge empire, which occupied one-sixth of the earth's area and has a population of 193,000,000, is pretty well self-contained. It could wage a defensive war indefinitely on its own resources.

Russia is a giant even to a vast country like China. What shall we get for that post-war picture that Vice President Wallace is concerned about? What happens if the United Nations become the disunited nations?

A ten-year program for improving railways of Switzerland at a cost of \$176,320,000 has been formulated.

Isolation Island

Chapter 8

Although it was the Morrison's custom to have demitasse and brandy served in the patio when the nights were warm and clear, Landa had whispered urgently to Maria before the party left the dining room to serve tonight in the living room. She knew Don and his father would be in the rose garden and if their angry words came back to the papaya buyers and Jim it would mean only further embarrassment for them all.

The party had been in the living room sipping their coffee and chatting for what seemed to Landa an interminable age when she glanced up to see Don's figure in the doorway. He hesitated for an instant, the flickering candlelight showing the whiteness of his face, and then made his way across the room and sank into a chair. There was a sudden lull in the conversation as all eyes turned to him. He attempted a brief smile.

"I'm dreadfully sorry about all this, but the padre is old and nervous you know." His tone was thin and unconvincing.

McCullough came quickly to the rescue. "I think I'm the one who should be making the apologies, old chap. I should have had better sense than to argue with the old gentleman when he isn't feeling himself."

Landa found herself listening intently for the heavy step of O'Shanessey on the tile floor of the patio outside.

"He's coming back for his coffee?" she said anxiously to Don.

"I think he'll be back later," Don's face flashed as he said the words. "His favorite horse, Shamrock, has been running a temperature and he's gone to the stables to see how he's getting along."

Landa then tried hopefully to swing the conversation to something—to anything but papaya.

"Uncle Mike's quite a horse fancier, you know."

"Fine horses are a luxury I've always dreamed about," Jim Blair said helpfully. "I spent two years in the Cavalry when I was a kid but haven't had much chance to ride the last few years."

"Daddy loved horses, too," Landa said dreamily. "I can remember when I was a little girl he had a horse named Silver Glow, a pure white Arabian, and he and Uncle Mike used to race them on the beach every Sunday morning. It was such fun."

For an instant Don seemed to be his old carefree self again. "And the natives bet their most valuable trinkets on the winner, remember?" he laughed. "Father taught them the art. He felt better making the occasion more genuine."

McCullough moved uneasily in his chair and set his brandy glass on a table beside him. "Pardon me, Mr. O'Shanessey, for changing the subject," he said, "but to get back to this papaya proposition, it's rather urgent right now for Brown, here, and myself to get as many growers under contract as we can, and I

was just wondering if we couldn't get this thing fixed up somehow in the morning. We would like to get on to Santos Diego by noon tomorrow."

A cold misery settled over Don's face, but his voice came sharp and brittle.

"You and Senor Brown are welcome here on our island as long as you wish to stay as our guests, but I think you might as well consider the subject of buying our papaya closed forever," he said.

Landa whirled on him, hurt and astonished.

"Don!" she cried. "But I thought you felt as I do! Why shouldn't we sell these gentlemen as much of our papaya as they care to buy?"

"It is my padre's wish," Don said with a tone of finality.

Angry indignation rose slowly in Landa. "Well, it isn't mine," she said sharply. "And I own half the island."

Jim Blair got to his feet. "If I may be excused," he said pleasantly, "I think I'll turn in. This getting up with the sun makes the bed look very inviting about nine o'clock."

Brown and McCullough took the cue and rose from their chairs.

"I think that's an excellent suggestion, Blair," Brown said. "Mac here and I could do with a little extra sleep and maybe things will look differently to all of us in the morning."

Landa crossed the room and pulled a bell cord that tinkled faintly in the far reaches of the hacienda. Presently Maria appeared in the doorway with a lighted candle in her hand.

"The gentlemen are leaving, Maria," Landa said.

After the three men had left the room Landa and Don sat for a long time without speaking. The distant roar of the pounding surf came in even cadence to fill the room. Finally Landa heard heavy footsteps on the patio floor and looked up to see Mike O'Shanessey coming in the door. The anger was gone from his face. He sat down heavily, facing the two.

"I'm sorry if I embarrassed you in front of your friends tonight, Landa," he said. "My temper does not seem to improve with age like my Irish whiskey." He laughed briefly at his own humor, and then went on in a smoothly even voice. "It's just that I'm getting old and sentimental about this island of ours. You know this is hallowed ground to me. You children were raised here and my whole life is rooted like the trees to this soil."

The old man stopped and smiled faintly at the two.

"There's so much for you to do here, Landa child," he went on. "Pleasant things I mean, like you used to. Painting the lovely fields and coves, going on with your music, being a good wife to my son. Business is nothing for a lovely girl to worry her head about. I'm sure if your father were here he would say the same as I. Let's not discuss this subject again. I'll speak to the buyers first thing in the

EXPECT FIGHT ON TAX ISSUE

Washington, March 10 (AP)—A compromise pay-as-you-go income tax proposal which won majority favor in the House Ways and Means committee was assailed by hard pressed champions of the Ruml skip-year plan today as a burdensome "doubling up" proposition.

The committee abandoned all long-considered current payment plans, deciding against abating any taxes, and indicated approval for continuing the present tax system with some modifications including a 20 per cent withholding levy against taxable portions of wages and salaries.

Battle on Floor

Under the compromise plan, the taxpayer could:

1. Continue paying in one year on taxes based on the previous year's income, or

2. Pay off the last year in full and proceed on a current basis, with what he then pays through the withholding levy being applied to his tax bill for the year in which the collections are made.

The committee probably will vote on the compromise today, transferring the sizzling pay-as-you-go issue

morning.

Landa didn't speak, but small fires had kindled in her eyes and there was a certain gleam of defiance as her gaze went quickly from Don to his father and she rose to run from the room.

LOANS TO PAY INCOME TAXES

A message to the person who has been unable to save sufficient money to pay his income tax instalment on March 15.

INCOME TAXES should be paid out of savings or current income, if possible. But if you have been unable to save enough to pay your tax and you expect to borrow now and repay from income, investigate Household's plan.

You can keep down the cost of your loan by borrowing no more than you need to pay the first quarterly instalment of your tax due March 15, and by repaying as soon as possible. If you already have part of your tax money, you should borrow just enough to complete your instalment. If you repay your loan in three monthly payments, you will have your loan paid when your second tax instalment becomes due June 15.

EARTH TREMORS FELT IN EAST

Pittsburgh, March 10 (AP)—Strong earth tremors shook sections of the east, middle west and Ontario, Canada, just before 11:30 p. m. (EWT) Monday night, rattling crockery, chairs and tables but causing little damage.

Police in several cities from Detroit on the west to Pittsburgh on the east reported "floods" of telephone calls from anxious residents asking information after their homes had been jarred in shocks lasting as long as 40 seconds.

Reports of the tremors came also from Ohio, western New York and Toronto, Hamilton and London, Ont.

An Erie, Pa., man said the shock was so hard he fell out of his chair.

The University of Michigan at Ann Arbor reported a distinct shock was recorded on its seismograph at 11:27 p. m. (EWT) and shocks of diminishing intensity continued about 40 seconds. Canisius (NY) college said it recorded a light tremor at 11:26½ p. m. and that the epicenter was about 50 miles from Buffalo.

Tremors of similar proportions rocked western Pennsylvania nine years ago.

More than 200 airplane parts are being made from plastics and their uses are being rapidly expanded.

NUERNBERG IS GIVEN SEVERE RAF POUNDING

London, March 10 (AP)—A strong force of RAF bombers attacked Nuernberg and targets in western Germany Monday night, the air ministry announced Tuesday.

"Last night aircraft of the bomber command were out in strength over southern Germany with Nuernberg as the main objective," the ministry said.

Nuernberg was last hit by Allied planes in a heavy raid on the night of Feb. 25.

One German plane which attempted to intercept the British bombers was shot down, the announcement said.

Some four-motored Lancasters participated in the attack, and at least two squadrons of Canadians took part.

A Berlin broadcast recorded by the Associated Press said large fires were started, and that eight of the raiders were shot down.

Nuernberg is one of the chief German centers for production of the Diesel engines which power submarines and factories there also produce armored vehicles, aircraft engines, electric motors, searchlights and firing devices for mines.

There is also a Messerschmitt factory at Furth in the Nuernberg area.

The number of planes which the Nazis claimed to have destroyed indicated in itself that the raid was carried out in force. This was borne out by observers on the British south coast, who said they had heard a steady procession of bombers heading toward the continent for more than an hour last evening.

The Vichy radio said British planes also were over the Netherlands.

TULLY MARSHALL DIES

Hollywood, March 10 (AP)—Tully Marshall, screen character actor, died early today at his home in suburban Encino. He was 79 years old.

Marshall, his physician said, had been confined to bed for 10 days. He was attended by his wife, Mrs. Marian Marshall. The veteran actor left the stage in 1916 to enter motion pictures under the guidance of D. W. Griffith.

Wallace Predicts Another World War

Delaware, O., March 10 (AP)—Vice President Henry A. Wallace asserted Monday a third World War appears inevitable unless the western democracies and Russia reach a satisfactory understanding before the present conflict ends.

"We shall decide some time in 1943 or 1944 whether to plant the seeds for World War No. 3," Wallace said in an address prepared for broadcast over the Blue network at the opening of a conference on "Christian Bases of World Order" at Ohio Wesleyan university Monday.

"That war will be certain if we allow Prussia to rearm either materially or psychologically," the Vice President said. "That war will be probable in case we double-cross Russia. That war will be probable if we fail to demonstrate that we can furnish full employment after this war comes to an end and Fascist interests motivated largely by anti-Russian bias get control of our government."

WANTS MERCANTILE TAX FOR PAY BOOSTS

Harrisburg, March 10 (AP)—Retention of the state mercantile tax to provide school teacher salary increases was urged by Rep. Reuben E. Cohen, Democratic floor leader, in a House speech charging the fiscal program of Governor Martin is permeated with a "do-nothing" philosophy.

Terming the Chief Executive's 1943-45 budget "a throw-back to the ostrich acting, slumbering Hoover idea of governmental function," Cohen last night said there is "enough living money" in it to provide at least a cost of living increase for teachers for the duration.

Martin's program for commonwealth operations called for a \$41,000,000 tax reduction by elimination of the state personal property, bank shares, corporate loans and mercantile levies.
